

BYTEWORKS

Capabilities Statement

Engineering Compete

- Deployed Tactical Commercializations
- Information Network Operations
- Biometric Data Integration
- Enterprise Modernization
- Infrastructure Design and Implementation

Key Successes

- DISA (Defense Information Systems Agency)
- SIPR NIPR Access Point (SNAP)
- NRTIO (Near Real Time Identity Operations)
- Camp Leatherneck Commercialization
- Marine Corps Teleport Operations Center
- Marine Corps Regional Hub Node (MCRHN)

Differentiators

Byteworks has the operational experience to be the hub of technology initiatives. Serving as a force multiplier, we provide engineering, integration, and program management throughout all facets of communications and combat support.

- Managing contractor support of operations on the battlefield
- Engineering fault tolerant and sustainable solutions
- Well-versed in developing "on the fly" engineering within best practices and mission constraints
- Experts at integrating legacy technology into next generation platforms

Company Data

- NAICS 541330: Engineering Services
- NAICS 541511: Custom Computer Programming Services
- NAICS 541512: Computer Facilities Management Services
- NAICS 541519: Computer Disaster Recovery
- NAICS 541618: Data Processing, Hosting, and Related Services
- NAICS 611420: Computer Training
- GSA Schedule 70 Hardware: S-35F-0349S
- DUNS 163448538
- CAGE 6RY37
- Accept credit and purchase cards
- Located in Duluth, GA
